The 30th in the afternoon works for me and Paul; do you all want to come to EPA?

Thanks,

Let's try for either Monday, 5/20 in the afternoon or Friday, 5/24 in the morning. Let us know which works best for EPA.

Hi Brian,

With the exception of May 28-June 7, my schedule is fairly flexible and I can make work a time when Paul is back from his Utah removal.

Thanks,

Paul/Amelia:

Any suggestions on when we might meet in Denver to discuss the work at the Saint Louis Tunnel in Rico and how best to complete that work?

Hey Brian,

I am out on a response in Ogden, Utah and won't be back to Denver until 4/15. I should be in town for two weeks after that and then back on the road for most of May. That said, depending on Amelia's availability I can alter my schedule in May. Sorry about the schedule difficulties. Maybe next month things won't flood, trains won't derail, and nobody will leave thousands of chemical containers in an abandoned warehouse. But the way this year has gone I won't be holding my breath.

Paul

I assume there won't be a meeting this coming week as I have not heard any confirmation of the proposed dates. However, 4/12 would work better than 4/10 at this point for our team. If not this week, please propose a couple of dates in the next 4 weeks.

Thanks,

Have you had a chance to discuss potential meeting dates with your team? Does 4/10 work for your team?

Thanks,
